

Asheville Community Theatre- Rabbit Hole Audition

Jason

Even though I never knew Danny, I did read that article in the town paper, and was happy to learn a little bit about him. He sounds like he was a great kid. I'm sure you miss him a lot, as you said in the article. I especially liked the part where Mr. Corbett talked about Danny's robots, because when I was his age I was a big fan of robots, too. In fact I still am, in some ways - - haha. I've enclosed a short story that's going to be printed in my high school lit magazine. I don't know if you like science fiction or not, but I've enclosed it anyway. I was hoping to dedicate the story to Danny's memory. There aren't any robots in this one, but I think it would be the kind of story he'd like if he were my age.
